A JOURNEY iN LOVE

The Wonder of God's Love in Creating New Life

Aim: To develop a secure understanding of what stable, caring relationships are and the different kinds there may be. Focusing on Catholic teaching, children will also know and understand about the conception of a child within marriage.

Physical and Intellectual: Focuses on the characteristics of positive and respectful relationships, building relationships online, positive and negative information online, recognising risks online and how to report them, appropriate boundaries in friendships, contributing to the wellbeing of others, discovering the presence of God in family and friends.

Social and Emotional: Understanding what love is, what it means to be patient, kind and never jealous, not boastful, conceited or seeking advantage, grievances, what it means that love finds joy in the truth and never comes to an end.

Spiritual: Focus on the key building blocks in a relationship, how conception takes place.
